Browser 1: Mozilla Firefox

Browser 2: Microsoft Edge :

Testing Checklist Confirmation

We have manually verified the following features in both browsers:

[✓] **All pages load correctly without errors.**

[✓] **All images (course thumbnails, logos, profile photos) display properly.**

[✓] **Navigation menu and Breadcrumb links work as expected.**

[✓] **The Registration form submits correctly to the Thank You page.**

[✓] **Tables (Calendar, Course Comparison) display with correct structure.**

[✓] **Internal anchor links (Jump to Section) function correctly.**

4. Issues & Resolution

Observation: Since the project uses raw semantic HTML without external CSS stylesheets (as per instructor guidelines), the visual layout is consistent but basic across all browsers.

Result: No rendering differences were found between Firefox and Edge.

5. Final Statement

All pages have been tested in Mozilla Firefox and Microsoft Edge on Windows. All functionality works as expected with no critical issues.
